Solutions for Legal Department to Shape Modern, Efficient Operations

From the increased pressures of new data security & privacy regulations to the need to proactively manage large volumes of small matters, corporate legal departments today are being challenged more than ever. Addressing multifaceted needs requires a solid strategic footing, tactical expertise born from historically-proven approaches, and an applied knowledge of the right tools and workflows to employ at the right time.

The Complete Enterprise team offers legal departments proven implementation and operations expertise and vendor-agnostic technology platform selection, design, implementation guidance across operational competencies:

Matter management

Legal eBilling

Document management

Contract management and analytics

Document assembly

Internal time tracking

eDiscovery and legal hold

Records management

Compliance management

Artificial intelligence (AI)

Technology-Agnostic Solutions Designed to Deliver the Right Results

Covering the full spectrum of needs for the modern legal enterprise, the Complete Enterprise team leverages a technology-agnostic, right-solution-for-the-right-results approach to deliver for clients. Our stakeholder-centric process evaluates client needs across teams, then leverages our proven expertise to recommend specific platform/s and implementation/s.
